- Advanced YST (Advanced Yamaha Active Servo Technology) Subwoofer for Powerful Bass Response
- Magnetic Shielding Allows Placement Near the TV (All Speakers)
- Frequency Response (30 – 25,000 Hz)

5 Satellite Speakers (Main L/R and Rear L/R/C)

- Acoustic Suspension Design
- Dual 5cm (2") Full-Range Drivers
- Input Power (Max/Nominal): 100 W/30 W
- Sensitivity: 86 dB/2.83 V/m
- Impedance: 6 ohms
- Dimensions (W x H x D): 72 x 164 x 111 mm; 2-13/16" x 6-7/16" x 4-3/8"/unit
- Weight: 0.9 kg; 2 lbs./unit

Centre Speaker

- Acoustic Suspension Design
- Dual 5cm (2") Full-Range Drivers
- Input Power (Max/Nominal): 100 W/30 W
- Sensitivity: 86 dB/2.83 V/m
- Impedance: 6 ohms
- Dimensions (W x H x D): 300 x 72 x 110 mm; 11-13/16" x 2-13/16" x 4-5/16"
- Weight: 1.1 kg; 2.4 lbs.

Subwoofer

- Advanced YST for Powerful Bass Response
- Dynamic Power: 100 W
- Output Power (RMS): 55 W (5 ohms) [U/C]
- Output Power (RMS): 50 W (5 ohms) [except U/C]
- 16cm (6") Multi-Range Driver
- Auto Standby with Sensitivity Selector
- Dimensions (W x H x D): 200 x 365 x 375 mm; 7-7/8" x 14-3/8" x 14-3/7"
- Weight: 8.5 kg; 18.7 lbs.

NS-P106

Digital Home Cinema 6.1-Channel Speaker Package

Advanced Y·S·T

Advanced Y·S·T

Designed for Use in 6.1-Channel Home Cinema Systems

This speaker package is designed for use in a 6.1-channel (7-speaker) system. This configuration allows Dolby Digital and DTS movie sound formats to be enjoyed at their full potential. The speakers' high performance capabilities ensure accurate reproduction of DVD and other high quality sound sources, as well as of Yamaha's dynamic and realistic CINEMA DSP sound.

The NS-P106 6.1-Channel Speaker Package consists of 5 satellite (main L/R, rear L/R, rear centre), centre and LFE (low frequency effect, i.e. subwoofer) channel speakers.

Enjoy Home Cinema Surround Sound at Its Best with an All-Yamaha System.

If the NS-P106 speaker package sounds like a good idea, wait until you hear it matched with a Yamaha Home Cinema Amplifier or Receiver and DVD Player. These components give you the unique sonic benefits of CINEMA DSP and a wide range of music and movie surround programmes, plus the full 6.1-channel Dolby Digital EX or DTS-ES movie sound experience. With an all-Yamaha system, you get top quality sound, easy connections, and stylish components that look good in any setting.

Good Speakers Are Important for Good Home Cinema.

Main Speakers
Required to handle most of the sound output, these speakers require excellent sensitivity, frequency response and dynamic range.

Centre Speaker
The centre speaker delivers most of the dialogue, so high clarity output is vital to movie enjoyment.

Rear Speakers
The quality of the surround sound experience depends on the quality of the rear speakers. Yamaha ensures that they perform up to high standards.

Rear Centre Speakers
The NS-P106 includes a rear centre speaker for reproducing this channel in Dolby Digital EX and DTS-ES 6.1-channel formats.

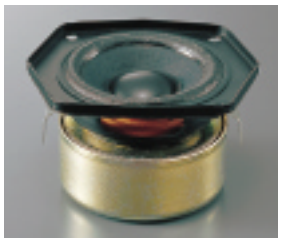
Subwoofer
Because good bass response is necessary for enjoying movie sound, Yamaha Advanced YST subwoofers are ideal for use in digital home cinema systems.

High Sound Quality Speakers

5 Satellite Speakers and 1 Centre Speaker

High Performance Dual 5cm (2”) Full-Range Drivers

These speakers use high quality parts to achieve excellent performance. They have 45mm (1-3/4”) dual ferrite magnets with shielded cases for maximum power. Kapton bobbins contribute to high S/N ratio. Unwanted vibrations are prevented by a heavy-duty steel frame and a parallel-surface cabinet design. Even the wiring is an anti-resonance type.



High Performance 5cm (2”) Full-Range Driver

Subwoofer

Advanced YST for Powerful Bass Response

Advanced Yamaha Active Servo Technology (Advanced YST) is a unique system in which the speaker and amplifier work together to cancel out impedance so the speaker unit has a perfectly linear motion. Advanced YST helps to ensure the highest levels of sound pressure and overall performance.
